

Confirmation Quality audit in accordance with KTA3507

The operators of nuclear power plants
combined in the VGB Arbeitsgruppe 'Funktionserhalt'
confirm to the company

Mirion Technologies (MGPI H&B) GmbH

for the production site
80687 München
Landsberger Str. 328a

and the scope of supply and services
**planning/design, manufacturing, repair, assembling and
distribution of Radiation Monitoring Systems for use in in-
plant and safety I&C applications of nuclear power plants**

**the capability for
product- and process-specific quality assurance measures.**

The audit based on Safety Standard KTA 3507 was performed on **July, the 21th and 22th 2021** sub-contracted to **Framatome GmbH**. Evaluation details are given in report **PGLT/20-11-029.07A**.

This confirmation is valid until **July, the 31th 2024** provided that the conditions underlying the evaluation have not changed.

Lingen, August, the 17th 2021
